The Atlantic and Pacific Railroad Calamity.

AN ABSCONDER IN LUCK.

The A. T. & S. F. Railroad Trying to Freeze out the S. P. Co. at Gaviota.

Associated Press Dispatches to the Herald.

NEEDLES, Cal., February 28.—The persons who were injured in the accident on the Atlantic and Pacific Railroad by the train going through the burned bridge on Saturday night were brought in here last night and everything that could be thought of was done for their comfort. Engineer Hodgdon died early yesterday. His bravery and presence of mind in applying the air-brakes and reversing his engine saved many lives. The company had physicians on hand soon after, and the injured are all doing well. Express Messenger Thompson, although injured, worked at the wreck and saved nearly all the treasure, about \$200,000. The balance of the express was a total loss. All the east-bound mail, except four paper pouches, was rescued. Only two or three trunks were saved of all the baggage. The remains of Brakeman Gilbert were picked up and would not fit a candle-box. The fireman escaped without a scratch. Nothing remains of the engine and three cars but a mass of old iron. The train did not take fire till about twenty minutes after it ran off the bridge, and the flames came from one of the lamps which exploded in the mail-car. How the bridge caught fire no one seems to know. A track was built around the wreck and trains are now running on time. The wrecked train consisted of seven cars, containing about seventy passengers.

SAVED FROM PRISON.

An Absconding Stockbroker Helped out by His Friends.

SAN FRANCISCO, February 28.—Four complaints for embezzlement in the Police Courts against Baldwin Gardner, an absconding stock broker, have been withdrawn at the request of the complaining witnesses. It is stated that a settlement has been finally effected between Gardner and his creditors, the basis of the settlement being the payment of forty cents on the dollar by Gardner's friends.

RAILROAD TACTICS.

Is the S. P. to be Prevented from Using Gaviota Pass?

SANTA BARBARA, February 28.—Great excitement prevails in this city in consequence of a well-founded rumor that the Atchison, Topeka and Santa Fe Railroad Company has got control of the narrow-gauge railroad from Port Harford to Los Alamos, in this county, and is grading between Los Alamos and the Gaviota Pass, with a view to heading off the Southern Pacific and preventing that company from going through the pass.

AFTER TWELVE YEARS.

A United States Descrier to be Tried by Court-Martial.

SAN FRANCISCO, February 28.—Judge Sawyer to-day remanded into the custody of the army authorities Louis Zimmerman, who, twelve years ago, deserted from the United States army, and who, a short time ago, feeling himself liable to arrest, surrendered and was imprisoned. Zimmerman swore out a writ of habeas corpus in the Circuit Court, alleging that his enlistment was illegal, as he was under age at the time. The case was argued and decided against him. He will consequently be tried by Court-Martial.

BOOM FOR SAN JOSE.

Sale of the Portal Vineyard to an English Company.

SAN JOSE, February 28.—The preliminary arrangements have been made for the transfer of the famous Burgundy vineyard, six miles west of this city, owned by J. P. Portal, to an English syndicate. The price has been fixed at \$134,000 for the land, improvements, name and good will. The stock of wine and brandy on hand is not included in the purchase. Final action in the matter has been delayed to allow the organization of local capitalists to purchase the place. A boom in the vineyards of this county is expected.

The Revolt of a Fend.

SAN RAFAEL, February 28.—A tragedy took place this morning at the vineyard of C. Grosjean, near this place. George Washburn shot Jean Daudon with a shotgun and then shot himself. Daudon's condition is critical. The men were laborers in the vineyard and the shooting was the result of a long-standing feud.

In and Out All the Time.

SAN FRANCISCO, February 28.—Judge Tooby this morning released Jimmy Hope, the notorious burglar, from custody. The Sheriff and Detectives Rogers and Coffey immediately re-arrested him, and his attorneys again sued out a writ of habeas corpus. The case will come up next Friday.

Loss of the Selma.

SAN FRANCISCO, February 28.—The brig Selma, which left this port January 30th for Hilo, in the Sandwich Islands, ran ashore at the point of destination February 11th and was totally wrecked. She had a cargo of general merchandise and was owned in this city. The loss is estimated at about \$20,000.

A Holocaust.

SAN FRANCISCO, February 28.—By steamer Gaelic it is learned that a Chinese junk, from Hainan to Siam, was wrecked off the Soochong coast. Out of 600 passengers and crew aboard, only six are known to have been saved.

The River and Harbor Appropriations.

WASHINGTON, February 28.—The success of the River and Harbor Appropriation bill has been assured by the complete agreement of the conferees on points of difference between the two Houses. The total appropriation made by the bill as agreed upon in the conference is less than \$10,000,000.

THE LEGISLATURE.

THE SENATE.

SACRAMENTO, February 28.—The Senate met at 2:30 o'clock. The Assembly bill appropriating \$60,000 for the support of the State Mining Bureau was read the first time, and placed on the special file.

The Assembly bill providing for an additional Superior Judge for San Bernardino county, was read the second time.

The Senate bill prohibiting the employment of minors for the delivery of notes or telegrams to houses of ill-repute, was read a second time and ordered to a third reading.

THE ASSEMBLY.

In the Assembly this morning Shannahan's resolution calling for an investigation of the State Prison Directors was taken up for consideration. Granger, of Butte, proposed an amendment that a committee of three be appointed to make an investigation, and report to the Governor, J. B. Brown moved to lay the resolution on the table, and this motion prevailed by a vote of 41 to 19.

The bill appropriating \$60,000 for maintaining the State Mining Bureau during the next two fiscal years was passed—59 yeas, 7 nays.

The afternoon was mostly taken up by the first reading of bills. Knox's Sunday law was referred on first reading. A message was received from the Governor stating that he had approved Assembly bill No. 49, relating to chattel mortgages, which includes wine and brandy in the case among property that may be mortgaged. The bill which was passed by the Senate to prevent the sophistication and adulteration of wine, was ordered engrossed.

Brooks' Pilot bill, reducing the present rate of pilotage, was passed by a vote of 56 to 16. Lawrence changed his vote, and gave notice of reconsideration.

THE KNOT UNTIED.

And Ready Again for Another Marital Splice.

SAN FRANCISCO, February 28.—Mrs. Maitland, better known as Jefferys Lewis, the actress, was to-day granted a divorce from J. A. Maitland on the ground of the latter's cruelty and failure to support. Maitland is in Australia. It is stated that Harry Mainhall, well known in theatrical circles, and at present her leading man, will marry Miss Lewis at an early date.

Railroad Excursion in Oregon.

PORTLAND, Oreg., February 28.—The railroad between Walla Walla and Pendleton, connecting the Oregon Railway and Navigation Company's lines, opened to-day by an excursion from Pendleton. Southerly winds prevailing all over the State, the snow is rapidly disappearing. The loss of sheep and cattle will be small.

The Upper Columbia, which has been closed since the third instant, is now again opened for navigation.

San Francisco Port Wardens.

SACRAMENTO, February 28.—A message from the Governor was received in the Senate appointing as Port Wardens of San Francisco, Louis J. Lueders and George Wilson, of San Francisco, and C. B. Smith, of San Joaquin, for the term of four years. The appointments were confirmed.

Transfer of a Street Cable Road.

SAN FRANCISCO, February 28.—It is now definitely stated that the Geary Street Cable Railroad has been transferred to the Market-Street Cable Company. The transfer is reported to have been made to-day.

The Carnival at Montreal.

[Our readers will be interested in the following letter, written by a little Los Angeles girl, who gives, in a quaint and naive style, her experiences and observations during her stay in Montreal.—EDITORS HERALD.]

MONTREAL, Can., February 15, 1887.—I thought, two years ago, that the grandest sight I had ever seen was the procession of R. X. in New Orleans, and I shall never forget it. But what I have seen here in Montreal during the past few days far surpasses that, and I thought it was wholly different, and you can have no idea from what I write of its "spectacular proportions." I quote these two last words because I got them from a friend who is kindly helping me write this letter.

On the 10th we visited all the toboggan slides, the Rink, the Maze, the Royal Arch, the Camp, and the Ice Palace. The attack on the Ice Palace at night by the Snow-shoe Club was the most exciting and magnificent sight I ever saw. Our room at the Windsor, which is the grandest hotel I know of, not excepting the Palace in San Francisco—looked out on Dominion square, which contained 30,000 people. There are five toboggan slides owned by the Montreal club, the Lansdownes, the Park, Jacques Cartier, and the Faguet. Blue-eyes later I have been made an honorary member and had a picture taken in my costume. The Maze is made of ice, like everything else, and when you reach the top you find ladies serving tea and coffee. The center of the Ice Palace has a skating rink of real ice, of course, and there are booths in which tea and coffee are served. We had a box right near that of the Governor-General, and nearly everybody had on skates, and hundreds of splendidly dressed ladies were skating all night and danced the "Lancers" just as in a ballroom at home, only they all did these dances on skates.

Another great sight was the procession of sleighs, from four-horse ones down to one-horse ones. Some had three horses, and they have music and lots of fun. Everything is on runners, from the street-cars down to the baby-carriages. Just think of it! Nurses out with babies and the thermometer 20° below zero. That was the figure this afternoon, and I went out shivering and danced the "Lancers" just as in a ballroom at home, only they all did these dances on skates.

This morning I went tobogganing down the steepest slide at the "Montreal," but there is no fun in coming here if you can't take a hard in everything. You feel when coming down the slide as if you were being shot out of a cannon, or had dropped from the top of the Washington Monument, but it's great fun, all the same. The weather has been beautiful all the time, except that it snowed one day. But I see by the papers that it has snowed in San Francisco.

This is all I have to say.

GEORGE THURMAN.

P. S.—If you use this, please fix it up a little, because you know I am only a little Los Angeles girl, aged 13 years and 2 months.

Burning of a Steamer and Two Lighters.

GIGANTIC COTTON OIL MILLS.

A Sighting Man Robbed of \$3000 Worth of Diamonds in a Pullman.

Associated Press Dispatches to the Herald.

NEW YORK, February 28.—Two lighters, filled with cotton, and the steamer Lone Star, of the Morgan Steamship line, were burned at the foot of Charlton street, North river to-day. The steamer and lighters were towed in mid-stream to save the other shipping near by. It is reported that one man was burned to death on the steamer. Several other sailors jumped into the river to save themselves. The Lone Star is the steamer which ran into and sank the British steamer Wells City, a few weeks ago. The Lone Star was damaged about \$100,000, and was beached on the Jersey shore. The loss on the British steamer Wells City, a few weeks ago, was about \$100,000. There were about 4000 bales of cotton stored there, some of which was saved. The loss on cotton is about \$150,000.

A GIGANTIC SCHEME.

For the Production and Utilization of Cotton Seed Oil.

GALVESTON, February 28.—In an interview this afternoon P. D. Armour, the well-known Chicago packer, stated to a representative of the Associated Press that a company would be organized next week in Chicago, with several million dollars of capital, for the purpose of immediately erecting throughout the South twelve gigantic cotton seed oil mills. Armour and his partners will hold the controlling interest in the big company, whose associate stockholders will comprise about all the leading scap manufacturers in the United States. The entire output of the mills will be taken by the stockholders and utilized in other factories and land-rending establishments.

A GOOD HAUL.

Thieves rob a Man on a Train whilst he is Sleeping.

ST. LOUIS, Mo., February 28.—Signor Cohen, a well known diamond broker, horse man and book-maker of Chicago, was robbed of \$100 in money and \$3000 worth of diamonds in a Pullman sleeper on the Iron-Mountain road, last night, while on his way from Memphis to Chicago. Upon retiring last night Cohen placed his case of diamonds in an inner pocket of his coat, which he hung up in his berth. When dressing this morning he discovered that he had been robbed of the diamonds and the money. An investigation showed that the occupants of the adjoining berth, who had watched Cohen's actions closely during the previous evening and who jumped from the train at South St. Louis, leaving their tickets to Chicago with the porter, were the probable robbers. The description of the men has been telegraphed to the police of all large cities.

GETTING HIS REWARD.

A Colored Supporter of Cleveland Nominated for a Good Office.

WASHINGTON, February 28.—James Monroe Trotter, nominated to-day to be Recorder of Deeds of the District of Columbia, is a colored citizen of the State of Massachusetts, 48 years of age. His early life was spent in the State of Ohio, where he began his education in the public schools of that State. For the past thirty-five years he has resided in Massachusetts, where, prior to the war, he was a teacher. Soon after the breaking out of the Rebellion he enlisted as a private in the 55th Massachusetts Regiment, colored troops, and was promoted for acts of bravery on the battlefield until he became a Lieutenant. Upon his return to civil life he was appointed and elected for eighteen years the position of Assistant Superintendent of the Register of Letters Department in the Boston postoffice. From this position he was retired in 1884, on account, it is said, of his independence in politics and his avowed purpose of supporting President Cleveland.

THE EXTRA SESSION.

Opinion in Washington That it is Unavoidable.

WASHINGTON, February 28.—War is brewing between the two Houses of Congress. Members of the Senate Committee on Appropriations, who are usually very guarded in their utterances, make no concealment of their opinion that the extra session is now almost inevitable, nor do they hesitate to place the blame where they think it belongs. After two or three conferences on the Sunday Civil bill last week, which were almost nullified by the early withdrawal of the House conferees, a meeting was secured at 10 o'clock yesterday morning which was attended by the Senate conferees, and lasted through that day and through last night as well, if necessary, to complete the bill and clear the desk for the remaining appropriation bills.

BANK BURGLARS.

Secure \$21,000 and Leave no Clue Behind.

ST. LOUIS, February 28.—A special from Canton, Mo., says burglars entered the bank at Lyngrave, Mo., last night and blew open the safe, securing all the valuables therein, amounting in all to \$21,000, most of which was in bonds and notes. The robbers escaped, leaving no clue as to their identity.

D. B. Lucas Appointed United States Senator.

CHARLESTON, W. Va., February 28.—Governor Wilson has tendered the United States Senatorship to D. B. Lucas, of Jefferson county. Lucas has accepted the tender and will receive his credentials shortly after the 4th of March.

No Convict Labor Wanted.

WASHINGTON, February 28.—The bill to prevent the employment of convicts and aliens upon public works, and of convict labor in the preparation of material for public works, passed by the Senate to-day, has already passed the House, and now goes to the President.

CONGRESSIONAL.

THE SENATE.

WASHINGTON, February 28.—The House Labor Arbitration bill was passed by the Senate without amendment.

Upon motion of Plumb, the House bill to provide for the adjustment of land grants heretofore made by Congress and remaining unadjusted was taken up, and after the adoption of sundry amendments was passed. A conference was ordered upon it.

The House bill in reference to the employment of convict or penal labor upon public buildings or public works, or in the preparation of material for public buildings or public works, was passed.

Upon motion of Mr. Plumb the House bill to provide for the adjustment of land grants heretofore made by Congress and remaining unadjusted was taken up, and after sundry amendments passed. A conference was ordered upon it. Upon motion of Miller the Pierre-Pneumonia bill was taken up. Upon a motion made by Davis to reconsider the vote by which Edmunds' substitute was last week adopted, the vote stood 30 to 22, so the motion to reconsider was carried. The question then recurring on Edmunds' substitute, Mr. Harris made a motion that its further consideration be postponed until to-morrow, which was lost by 56 to 33. Edmunds' substitute was then rejected, yeas 21, nays 29. The Senate bill to prohibit the mailing of newspapers and other periodicals containing lottery advertisements was taken up and passed.

THE HOUSE.

The House considered resolutions expressing regret at the demise of Representative Cole, of Maryland, and honoring his memory. Eulogistic addresses were delivered and the resolutions were adopted. The House then went into a Committee of the Whole on the Legislative Appropriation bill. The bill was read by paragraph for amendment, and a substitute was ruled out on a point of order. The committee then rose, and on a motion of Holmes it was ordered that when the eulogies of the late Representative Cole, Maryland, are concluded this evening, the House will resume the consideration of public business. The House took a recess until 7:30 p. m.

DISAGREEING LEGISLATORS.

No Settlement Reachable in the Fishery Retaliation Bill.

WASHINGTON, February 28.—The House conferees on the bill to authorize the President to protect and defend the rights of American fishing vessels (the Fisheries Retaliation bill), have prepared a statement which will be submitted to the House at the earliest opportunity. The report begins as follows: "The unanimity repeatedly expressed in the Senate and the House of Representatives have given the managers on the part of the House every hope that by mutual concession an agreement would be reached in the conference, which would result in giving such ample authority to the President as might be necessary for the satisfactory settlement pending on the question of American fisheries on the Canadian coast. It is therefore with the deepest regret and disappointment that we are compelled to report disagreement." The report is signed by Messrs. Belmont and Clement. Mr. Rice, of Mississippi, does not join in the report. It is believed that no report will be made by the House for further conference and any overtures in that direction must come from the Senate.

An Objectionable Clause.

WASHINGTON, February 28.—The Senate amendments to the Pacific Railway Investigation resolution, with a single exception, are understood to be acceptable to the House Committee on Pacific Railways, but the clause providing for the appointment of Commissioners is regarded as so objectionable that a conference has been given the managers on the part of the House every hope that by mutual concession an agreement would be reached in the conference, which would result in giving such ample authority to the President as might be necessary for the satisfactory settlement pending on the question of American fisheries on the Canadian coast. It is therefore with the deepest regret and disappointment that we are compelled to report disagreement." The report is signed by Messrs. Belmont and Clement. Mr. Rice, of Mississippi, does not join in the report. It is believed that no report will be made by the House for further conference and any overtures in that direction must come from the Senate.

Steamer Emigrant Rates Increased.

NEW YORK, February 28.—The rate of steerage passage from New York to Europe has been increased on all the principal steamer lines on an average of \$5. The average rate was \$15, and it was to-day increased to \$20. The price of food and other necessities on board the ships for some time. The lines adopting the above as a standard are the Guion, Inman, Anchor, White Star and Cunard.

Milwaukee Printers Preparing to Strike.

MILWAUKEE, Wis., February 28.—The printers on the Sentinel and Journal will probably strike at noon to-morrow. They demand an increase of five cents per 1000 ems and several other concessions, which the publishers refuse. The printers are willing to make concessions and attempted to compromise on three cents advance, but the printers would not meet them.

Which Will You Attend?

This evening Count de Lion Commandery Knights Templar will dedicate their new Asylum with imposing ceremonies. After the dedicatory exercises at the Asylum, corner of Spring and First streets, the Knights and their invited guests will adjourn to Armory hall, where there will be a magnificent banquet partaken of. When the innerman is satisfied the order will be dancing, and those so fortunate as to hold invitations will see an assemblage at the ball room that has seldom been surpassed in Southern California for brilliancy and beauty.

The ladies of the Flower Festival Society will to-day open their new home, on Fourth street, near Main. These noble workers in the cause of Charity will hold an informal reception from 10 a. m. to 10 p. m., to which their thousands of friends are invited.

Professor Von Schluembach, the talented lecturer in the cause of Christianity, will hold forth at the Opera House this evening, for the last time in Los Angeles.

Thus it will be seen that there is no lack of entertainments, both instructive and pleasing, for people to attend this evening.

Stringent Measures Adopted for Alsace.

TOPOLOBAMPERS SKIPPING.

Cardinal Jacobini, Prematurely Reported Dead, Expired on Monday Noon.

Associated Press Dispatches to the Herald.

BERLIN, February 28.—A dispatch from Strasbourg to the Post, announces that the government has issued an order for the dissolution of Alsatian Choral societies, it being suspected that the Union assisted the objects of the French League of Patriots. It is further reported that laws dealing with societies will be rigorously enforced; that the measure forbidding French military men to stay in Alsace, except on a special permit, be applied to civilians, and that societies which, as a matter of common knowledge exclude Germans, be dissolved. Some law is considered necessary to deal with French emissaries, press correspondents and others who, it is claimed, have been acting as electoral agents, inciting malcontents, freely visiting fortifications, and doing work of spies. The advocates of effective Germanization desire the temporary suspension of electoral rights in Alsace-Lorraine, German education in primary schools, and government administration in the place of municipal councils. The Hanoversche Courier says: "Alsatians must blame themselves if one result of the elections be an application to their provinces of laws of absolute dictatorship. When made into a demand that another war with France would be the complete ruin of the provinces, Alsatians will perhaps be ready to vote for German candidates." On the other hand the Boersche Courier contends that the real conquest of the provinces must be the work of a generation and demands patience. The work of France in Alsace-Lorraine is the feeling of patriotism to-day shown towards France will revert to Germany when the justice of the German rule effaces from the minds of the people the effects of two centuries of French rule and the effects of two centuries of French domination. The Nachrichten says (the sensation has not yet lost its threatening attitude, compelling Germany to provide for every contingency. Among the warlike preparations of France during the past week may be noted the fact that 241 truck loads of blank bombs passed the frontier stations, and that immense orders have been given for steel tubes for firearms. The rolling stock of the French Northern and Eastern railways has been massed in large parks at various points. The work of firing along the borders of Belgium and other fort works has been begun. Windthorst has written an indignant denial of the statements of Nothling, the National Liberal candidate at Aschaffenburg, that he (Windthorst) wished to restore the throne of Louis XVI. The last lot of emigrants in consequence the new German Liberals of Magdeburg and the Socialists of Berlin and elsewhere threaten to abstain from supporting the new German Liberal candidates in the supplementary elections.

A BUBBLE EXPLODING.

The Topolobampo Colony Turning out a Delusion and a Snare.

BENSON, A. T., February 28.—Private advices from Sonora confirm the report about the dissatisfaction of the Topolobampo colonists on account of the existence of smallpox among them. Nearly sixty are said to be afflicted, and six have died with the malady. A large number of the colonists are now at Guaymas, not having funds enough to get out of Mexico. Special instances of destitution with the aid of foreign powers. In consequence the new German Liberals of Magdeburg and the Socialists of Berlin and elsewhere threaten to abstain from supporting the new German Liberal candidates in the supplementary elections.

CARDINAL JACOBINI.

Premature Report of his Death—His Decease Yesterday.

LONDON, February 28.—The report of the death of Cardinal Jacobini, which was received here on Saturday afternoon and was cable since to New York, proves to have been premature. The Cardinal sank into a comatose state and it was generally reported in Rome that he had passed away. Life was not quite extinct, however, and he lingered till noon to-day, when he expired.

WAR MUTTERINGS.

Severely Strained Relations Among European Nations.

NEW YORK, February 28.—The Star's London correspondent cables: The outlook in the East grows hourly more threatening. The Times publishes a letter from a correspondent at Vienna to the effect that the relations of Russia with Germany and Austria are severely strained, and, what is more important, no further attempts are made in official circles to conceal the fact. Dispatches from other sources confirm this. The Herald's special correspondents in the Levant have recently been making close inquiries into Russian armaments, and declare that the Russian force now concentrated in Central Asia, equipped for active service in the field, numbers fully 300,000 men of all arms. Of these three divisions of 50,000 to 60,000 men each, are ready to march on Afghanistan at a few days' notice. Reports have been received of plenty of Russian troops who are massed in Russian Poland, respecting which it has been difficult to obtain information. These reports prove that Russia has made enormous preparations for offensive war. Russian Poland is described as one vast camp of armed men.

Mauna Loa Breaks Out Again.

SAN FRANCISCO, February 28.—The steamer Gaelic, arrived to-day from Hong Kong via Honolulu, reports another outbreak of lava from Mauna Loa. All the centers were in great activity when the steamer left Honolulu.

Wagnerism in New York.

NEW YORK, February 28.—The National Opera Company to-night signaled the beginning of its season at the Metropolitan with a brilliant performance of Wagner's Flying Dutchman.

THE SOIL IS ALLUVIAL, VERY RICH, AND EASILY CULTIVATED.

The rainfall is greater than in many portions of the valley, and the soil retains the moisture and the growth of vegetation, trees and vines is wonderful. It is adapted to the raising of all kinds of fruit, and the soil is rich in minerals.

The Water is supplied from a Private and Undisputed Source, and is of the purest quality. It will be piped through the principal streets of the town, and each and every one can have an abundant supply at all times. It is the determination of the President of the company to place this property on the market at very attractive prices and on reasonable terms of payment, much less, considering its many advantages and surroundings, than any like property in the valley. The tract is subdivided into lots and blocks of all sizes, so any one can be suited, and those who desire to avail themselves of an opportunity for an investment in this a splendid chance, and those who select early will have a decided advantage as to location and prices.

JOS. FARRIS DEPARTMENT—Owing to our greatly increased facilities, we are prepared to execute all kinds of work in a superior manner. Special attention will be given to commercial and legal printing, and all orders will be promptly filled at moderate rates.

Remittances should be made by draft, check, postal note or postal note. The latter should be sent for all sums less than five dollars.

Office of publication, 75 North Spring street, Los Angeles. Telephone No. 106.

The "Illustrated Herald."

The forthcoming number of the ILLUSTRATED HERALD will surpass in attractiveness and interest any preceding issue of this very superior publication. The engravings have been executed by the best artists on the Pacific coast, and the mechanical finish of the whole publication will be such as to reflect credit upon the good taste and workmanship of the printers. It will be filled with carefully prepared articles on Southern California, and every interest of Los Angeles county will find itself ably presented and discussed in its columns. As a compilation of facts relating to the attractions and progress of our section, the ILLUSTRATED HERALD will be invaluable to send abroad. It will give the stranger a comprehensive and graphic idea of the value of our section to the Eastern seeker for a new home, and by its dissemination will materially assist in accelerating the gratifying march of our city in its unexampled career of prosperity. The ILLUSTRATED HERALD will be out from the press by about the 24th of this month, and ready for distribution about the 1st of March. Orders should be sent in immediately.

The Height of Folly.

The Riverside Daily Press of February 25th has this as the head of its editorial columns:

"The Executive Committee of the Riverside Citrus Fair held a meeting this afternoon, and voted to postpone the approaching Citrus Fair on account of the fear of smallpox from Los Angeles. The vote for postponement was: Filkins, North, Castleman and Rudisill, against; L. M. Holt, A. S. White, in the chair, favored postponement. It was a bad move, but the majority, five to one, always rules in this Democratic-Republican form of government."

This move on the part of Riverside is a most peculiar action, and besides being absurd and ridiculous, shows an animus against Los Angeles, and an attempt to injure the business interests of the city.

All the facts of the smallpox business have been published with accuracy in the DAILY HERALD, which was probably not read by the Messrs. Filkins, North, Castleman, Rudisill and White. Mr. Holt, being a gentleman who edits and reads newspapers, knew what he was about, and voted no. Three of the suspected cases here turned out to be measles, and there have been no new cases here for a week. Those who had this disease are nearly cured, and the disease may be considered scotched and killed.

The people of Los Angeles, when they saw this action of the Riverside Fair managers in postponing their exhibition, and coupling that postponement with a stab at Los Angeles, were indignant, and have concluded to accept the postponement and to make the same perpetual.

Angelenos do not fear to visit Riverside because typhoid fever is there, or because a case of measles occasionally lingers there a few days, or to hinder people from going there because the oranges froze on the trees a few weeks ago.

The Los Angeles Herald has no petty jealousies or animosities, and desires all settlements in Southern California to thrive, but cannot look upon such action by the officials of the Riverside Fair with any favor.

The great Flower Festival, in Los Angeles, will not be postponed because there was a cold night once in Riverside or a case of croup in some of its families. Los Angeles, the metropolis, desires all outlying towns to thrive abundantly, and the more they thrive the more the metropolis will increase in thrift.

A large number of persons from Los Angeles contemplated visiting the Riverside fair and making exhibitions, but this action of the Board of Managers of the fair has changed their plans and the exhibitors and exhibits will go elsewhere.

Some persons also wish to know if they will have to be quarantined at that place, and fumigated and saturated with disinfectants before being allowed to ride down Magnolia avenue, for fear of injury to the eucalyptus, the pepper, palm and gravelly robusta.

Definite information cannot be obtained till the memorable five meet in solemn convocation again. The "Cinque Ports" may or may not be quarantined.

Mr. Holt has the sympathy of nineteen-twentieths of the people of Riverside for his stand in this matter, and of all the people outside of that corporation.

The Inter-State Commerce Bill.

There is a vast amount of interest manifested in the new Inter-State Commerce Bill recently passed by Congress, and the interpretations of

the document are various and important.

Mr. Albert Fink, a railroad commissioner from New York, gives his views to *Bradstreet's*, of which that journal says: "Mr. Fink concerns himself with the interpretation of section 2, relating to discriminations, and section 4, relating to long and short hauls. He starts from the proposition that the object of the passage of the law was to make the transportation charges of the railroads 'reasonable and just,' and he says the sections in question must be construed in the light of this object. In the construction of both of the sections referred to he lays much stress upon the clause, 'under substantially similar circumstances and conditions,' which occurs in each. If this clause were not incorporated in section 2, the commissioner says, it would forbid the practice of rating, but the insertion of the clause bringing up for consideration the different circumstances and conditions legitimately influencing rates apart from the service allows different rates to be charged for the same service. Regarding the bearing of the clause upon the interpretation of the long and short haul section, Mr. Fink says that the 'conditions and circumstances' must refer to the principal elements which control transportation charges, viz., the cost of service and competition, using the word 'competition' in the widest sense, and as including competition with water routes, with rail routes, and circumstances." must refer to the principal elements which control transportation charges, viz., the cost of service and competition, using the word 'competition' in the widest sense, and as including competition with water routes, with rail routes, and circumstances." must refer to the principal elements which control transportation charges, viz., the cost of service and competition, using the word 'competition' in the widest sense, and as including competition with water routes, with rail routes, and circumstances."

Richard Sullivan favored with a splendid recitation entitled "Nancy Bell."

Comrade Lyons sang a very comical song, "Kitty Maria."

J. T. Hansacker favored with a reading.

Master Frankie Gibbs, only 4 years old, sang a cuckoo song, and brought down the house. Being encored, he sang:

"There is a book upon the shelf,

And if you want any more you can sing it yourself,

H'm, h'm."

This closed the entertainment, and the floor was given to dancing. Every member of the Legion appointed himself a committee of one to see that everyone had a good time. The dancing kept up till midnight, and everyone went home well pleased. The people of East Los Angeles are very sociable, and strangers in their midst are always sure to be treated well and feel entirely at home. During the evening refreshments were served.

THE SELECT KNIGHTS.

A Social and Dance in East Los Angeles.

A very largely attended social entertainment and dance was given last night in Campbell's Hall, East Los Angeles, by Legion No. 6, Select Knights, A. O. U. W. The hall was very prettily decorated for the occasion, and the affair was a grand success in every respect. Shortly after 8, Commander of the Legion, J. D. Vogan, made a short address, welcoming the guests and explaining the worthy objects of the Order. The programme then commenced with a song, "Tidings Over the Sea," by Mrs. Logram. The lady sang very sweetly, and was loudly applauded.

Richard Sullivan favored with a splendid recitation entitled "Nancy Bell."

Comrade Lyons sang a very comical song, "Kitty Maria."

J. T. Hansacker favored with a reading.

Master Frankie Gibbs, only 4 years old, sang a cuckoo song, and brought down the house. Being encored, he sang:

DAILY HERALD.

TRAMPS.

The City Infested by Vagrants and Loafers.

Fourteen seedy, heavy-eyed individuals, all of the degraded sort of humanity, were marched into Justice Austin's Court yesterday afternoon about 4 o'clock, to answer to a charge of vagrancy. They were gathered into the fold at Congress Hall, on Main street, at an early hour yesterday morning, but by the time the matinee commenced they were freshened and evidently had made an effort to look as respectable as possible. Some of them were evidently of the laboring class, but little sympathy could they claim on that account, for had they not lost their self-respect, providing they ever had any, they would not have been found in such a place. The trouble is that in all business centers where money is plenty and people are free-handed are found thousands of the tramp fraternity. A town that is once marked is doomed to this pestiferous evil until some severe steps are taken to get rid of them. Tramps belong to a great fraternity, which has its signs, passwords and rules as well as the great orders to which honest humanity belongs. These signs serve as guiding-posts as surely as does the surveyor's monument, and while they cannot be understood by anyone outside of the fraternity, they give rise to a great deal of annoyance to those who have once felt or treated a member of the order with kindness. An examination of a tramp's pockets invariably reveals a nail or a piece of chalk, the implements used in designating houses where they can or cannot obtain food or money. Many people in this and other communities have wondered at the crosses and other marks which they have observed on their fences and sidewalks. These marks are those of the tramp fraternity. One lady residing in one of the suburbs a short time ago gave some food to a beggar, and for a week afterwards the house was absolutely besieged by tramps asking to be fed. Although charitably inclined, this lady could not afford to feed from thirteen to sixteen tramps a day, and she stopped her free lunch. Since the first day on which she refused every beggar, she has not been annoyed, and this gives conclusive proof that they must have some way of informing each other of the intentions of the town, on the one hand, and that there are no doubt many more of a similar nature, and if the inhabitants of a town are free-handed, it is not reasonable to believe that the news will be spread and the town inundated with such characters. The people of Los Angeles must be a large number of tramps in town now and others are now heading this way. If all those arrested are not treated severely by the law the number will not decrease very soon, for once they gain admission they are about to work, and it is difficult for a Court, however, to decide just which of the parties brought before it deserves sentence, for when arrested they all have plausible tales to relate. They are either working, or else they have worked, or are about to work, and if some one tells the truth and the others false it is almost impossible to distinguish which is the guilty one; consequently it is probable that some guilty ones escape and some that are innocent suffer. If they do it is their own fault for they should not be found in such circumstances as will render them liable to suspicion. All of the fourteen before the Court yesterday stated that they had worked and some said that they were working, but the fact that they were found in Congress Hall yesterday, on the chairs, on the tables and on the floor, seemed to prove conclusively that they were either there to sober off or else to sleep there free of charge. Some had only been there one night, and others were known to have been there for days and weeks. Justice Austin after carefully hearing the evidence allowed five to go, sentenced one to three days, four to five days and four to ten days in the county jail. In other communities tramps think themselves fortunate if they escape their chains for thirty days. Of the fourteen only two had any money—one had \$9.35 and the other fifty cents. There are several other places than Congress Hall that are frequented by tramps and the sooner they are broken up the better it will be for the community.

THE NADAEU CONTEST.

Unfounded Rumors of a Compromise Circulated.

A rumor was current upon the streets yesterday afternoon that the Nadeau will contest had been compromised on the basis of \$50,000 apiece for each of the heirs, but a careful investigation did not develop its truth. A representative of the HERALD called upon Mr. W. M. Caswell, special administrator of the estate, last evening, and that gentleman stated that he had heard nothing about such a compromise, although he knew that friends of both parties had been endeavoring to bring them together on some basis, but up to the present time they had come to no agreement to his knowledge. Some time ago the contestants offered to withdraw the contest if each received \$75,000, but the executors had no authority to take such action, and the offer was refused. Shortly afterward two of the children of R. Nadeau withdrew from the contest, but he stated that they would be better off in the end than if they continued their opposition to the settlement of the estate. This leaves as contestants the two sons of Mr. Nadeau, George and Joseph, who have not yet been heard from. By the terms of the will the children of Mr. Nadeau were left property which would realize about \$50,000 apiece for them, according to the figures of the executors, and as long as the property is kept tied up in court there is no chance for any of them to obtain their portions of the property. There is a probability that the contest will be withdrawn, but if it is not, the matter will come before the Superior Court on March 29th.

Change of Officials.

FINANCE AND TRADE.

A Review of the Day's Transactions.

NEW YORK, February 28.—The week opened on stock exchange with a dull and generally weak market. Influences affecting values were about evenly divided, but the bears again became aggressive, although the results of their operations were small. They lay considerable stress today upon the probability of an extra session of Congress and the depreciation of bank reserves. The market opened rather heavy, a majority of stocks showing a decline in prices. Business was quiet, and while there were slight advances in early dealing, the entire list weakened quickly and further declines of from 1/4 to 1/2 per cent were established. The market then became dull with insignificant fluctuations, though the general tendency was upward until noon, the improvement being lost after that time. The close was a decidedly better feeling, developed and most of the early losses were recovered. There was a renewal of heaviness in the last hour and the market closed barely steady.

British Grain Review.

LONDON, February 28.—The Mark Lane Express, in its review of the British grain trade during the past week, says: "Notice is taken of the London and provincial markets is steady at previous rates. Sales of English wheat during the week, 4,471 quarters, at 32s. 7d. against 6,823 quarters at 29s. 3d. during corresponding period of last year. Foreign wheat is quiet. Corn is weak. Seventeen cargoes of wheat have arrived, six cargoes were withdrawn and as well as the great orders to which honest humanity belongs. These signs serve as guiding-posts as surely as does the surveyor's monument, and while they cannot be understood by anyone outside of the fraternity, they give rise to a great deal of annoyance to those who have once felt or treated a member of the order with kindness. An examination of a tramp's pockets invariably reveals a nail or a piece of chalk, the implements used in designating houses where they can or cannot obtain food or money. From J. Bicknell, to join with the city in grading Rock street, between Fort Street and Cemetery avenue.

From R. J. Price et al., calling attention to the fact that sewer water had damaged their property on South Main street.

EXECUTIVE SESSION.

A motion was made and carried to adjourn, and the President stated that there were matters to come up that would require an executive session. The outsiders and reporters were then excluded from the hall and the Council commenced a star-chamber proceeding. The matter was in reference to whether the water now being developed at Crystal Springs by the City Water Company, came from the river, the water of which stream belongs to the city. The City Engineer gave it as his opinion that the Crystal Springs water came from the river. It was determined to call for an investigation by and an opinion from State Engineer Hall, and a committee was appointed for that purpose. It is feared that when the present franchise expires the city will be obliged to purchase the same old place on Third street. Ask by which the City Water Company uses the river water engine, they will claim upon the old franchise. I will do my best to please all customers. EDGAR SESSIONS, feb-13-m-tue, fri, sat.

Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some action of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blood, bleeding and itching piles yield at once to the application of the Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, alleviating the intense itching, and effecting a permanent cure. Price 50 cents. Address the Bosanko Medicine Co., Eliza, O. Sold by E. F. Heinemann.

THE CITY ATTORNEY.

The City Attorney presented draft of an ordinance changing official bed of the Los Angeles river to conform to the present bridges. Adopted.

The Mayor reported that W. C. Smith, Vice-President of the Atchison, Topeka and Santa Fe Railroad Company, was ready to proceed with the building of the levee as soon as the city made a deed to the property adjoining the river granted to the road. Filed.

The City Attorney presented an ordinance defining the lines of Pico street between Pearl and Main streets. Adopted.

The Mayor reported that the reason the streets were not sprinkled was owing to the absence of Mr. Donegan from the city; also the contract had not yet been signed.

Mr. Jones moved that a crosswalk be built at Spring street on the north line of Second street. The motion was withdrawn.

Mr. Perry moved that a crosswalk be established on the street north side of Second. So ordered.

DR. HENLEY'S EXTRACT OF GELERY AND BEEF IRON

A Suggestion.

Those persons who have heard so much of the far-famed Dr. Henley's Celery, Beef and Iron, and yet have not given it a personal trial, would do well, if they have any complaint of the liver, bowels, stomach or kidneys, or are troubled with debility, insomnia, loss of appetite, loss of flesh, or gastric irritability, to give this wonderful discovery a fair trial. Celery, Beef and Iron is worth millions to the human family. There is nothing deleterious in this tonic, but it is a safe and valuable remedy for many troubles. For sale by all druggists.

News Notes.

The matter of the estate of Remi Na-
deau will come up before Judge Hutton
on March 29th.

Trains are now running regularly on
the A. & P., the bridge at The Needles
having been repaired.

The loss of a number of saws and
tools is reported by S. F. Sargent, of No.
13 Wright street.

A tin-covered trunk is missing from
the Southern Pacific depot. It was
marked A. D. More.

Mr. Felix McDonald reports a nickel
watch and gold chain having been stolen
from him at the Conclave saloon on
First street.

J. B. Wood, representing the Pacific
Press Publishing House, of Oakland,
Cal., is in town and will establish an
agency here.

A drawing-room recital will be given
at Hill College next Friday evening by
Mrs. M. E. Hill. The programme will
be a very attractive one.

A brush fire on Pico street, on Frank
Bauch's place, near the Williams tract,
was the cause of the fire alarm at 7:30
yesterday evening.

Mr. H. A. Clawson, formerly of the
Depot Hotel, passed through the city
yesterday en route to San Francisco. He
was returning from Mardi Gras.

H. H. Wilcox has generously donated
office-room for the agency of the Humane
Society at 34 North Spring street, and
the office of the society will hereafter be
at that number.

Willie Eldridge tried to sell some col-
lar buttons, watch chains and other
cheap jewelry on Alameda street yester-
day, without a license. He was ar-
rested by Officer Stephenson.

The Raymond Hotel is crowded to its
utmost capacity, and daily applications
for accommodation are numerous. It is
stated that prices have been raised to
\$100 per month for board and room, and
even at that price there is no falling off
in patronage.

This evening Mr. Von Schinbach
will give his farewell address at the
Grand Opera House. The Haine Quar-
tette and the Trinity M. E. Church
choir will render an excellent musical
programme. 2000 complimentary tick-
ets have been issued.

Rev. J. W. Ellis is reported to have
said some years ago that he had done
good work in the Los Angeles part of
the moral vineyard, and would leave
with a clear conscience, only he was
afraid that he had not regenerated the
prem. He stayed to regenerate Judg-
ing from the way a morning paper goes
after him the regenerating act has not
been so successful as it might have been.

There are many things of great interest
to the people in the report of the
Council proceedings to be found in
this morning's HERALD. The Council
will try to keep the water of the
river intact. Ralph Rogers asks
for a franchise for an elevated railroad,
and Chas. G. Raymond and L. W. Dun-
can ask a franchise for a street car.
This last line as proposed will cover a
very large territory in Los Angeles that
now has no street-car communication,
and the property owners along the route
double feel jubilant.

Personal Mention.

George Campton, of Newhall, is in
the city.

O. T. Bradbury, of Pomona, is at the
St. Charles.

Judge Hall, of Calico, is stopping at
the St. Elmo.

Mr. D. M. Harwood, of Calico, is
visiting the city.

W. H. Holabird, of Coronado Beach, is
in the city.

S. P. Jewett and wife, of Pasadena,
visited Long Beach yesterday.

J. B. Bonebrake and wife, of Kansas,
were at Long Beach yesterday.

Ex-Senator Whitney and wife, of Oak-
land, arrived here yesterday on a brief
visit.

Charles Howard Shinn, manager of the
Overland Monthly, is at the St. Elmo.

Governor O. H. Manning and family,
of Topeka, Kan., visited Long Beach
yesterday.

H. G. and W. M. Thompson, of
Terre Haute, Ind., are in the city and
stopping at the St. Elmo.

C. W. Smith, General Manager of the
A. T. & S. F. railroad, left the city yester-
day for a trip to Topeka, Kansas.

Rev. Dr. Hitchcock, of Chicago, who
has been a guest of Hon. G. Wiley
Wells for a short time past, leaves for
San Francisco to-day.

Captain Cheesbrough, of the ship-
ping firm of Williams, Dimock & Co., of
San Francisco, with his family, is stop-
ping at the Nadeau. They will return
to San Francisco to-night.

John Dolbeer, of the firm of Dolbeer
& Carson, lumber merchants in San Fran-
cisco, is in this city. Mr. Dolbeer has
been in San Diego for the past three
weeks, and is now on his way home.

A City Official Accused.
At the City Council meeting yester-
day Councilman E. W. Jones arose and
said he had seen a statement in the
Evening Express in reference to a certain
city official that should be investigated.
Mr. Jones said he did not want to men-
tion the name of the accused individual,
but thought an investigation was in
order, and moved that the matter be re-
ferred to the Committee on Finance.
Mr. Jones said that the official had ad-
mitted letters to different people in
forming them that they were entitled to
certain rebates on personal property
taxes paid, and if they would give him a
small commission he would secure the
rebate. Mr. Jones said it was claimed
that the official in every case mentioned
a sum less than the sum to which the
taxpayer was entitled on rebate. The
charge is against Mr. Sam Frager, a
representative Deputy County Assessor, and
representing Deputy City Assessor, and
is met by the Pacific Blade, a paper
published at Santa Ana. Very few per-
sons will believe that Mr. Frager is guilty
of any wrong-doing, and his friends have
confidence in a favorable outcome of the
investigation.

JUDGE BRUNSON.

He Resigns His Seat to Take
Effect April First.

Judge Brunson announced from his
bench yesterday morning, upon the
opening of court, that he had forwarded
his resignation as Judge of the Superior
Court to Sacramento, and that he would
sever his connection with the court, in
the judicial capacity, on the 1st of April
next. Although it was known that Judge
Brunson had been appointed suc-
cessor of the Acheson, Topeka & Santa
Fe railroad, it was not known when he
would tender his resignation.

Governor Bartlett will have the ap-
pointment of a successor to Judge
Brunson, and there is, of course, a num-
ber of applicants for the position. Mr.
M. P. Gardner and Thomas B. Brown,
Esq., are prominent candidates, and
both have a strong following. There
are other legal lights at the bar who
aspire to adorn the bench.

It is stated that Judge John Hunt, at
present Judge of Department No. 3, of
the Superior Court of San Francisco,
desires to come to Los Angeles for the
benefit of his health, and will make an
effort to get the appointment of Superior
Judge of this county in place of Judge
Brunson. This proposition is supremely
ridiculous, as it is mentioned because
a report is current that a non-resident
of the county should be appointed. The
people need not be afraid, the bench
will be occupied by a Los Angeles man,
and one eminently satisfactory to the
bar of this county.

Police Arrests.

During the month of February the fol-
lowing arrests were made by the police:

People's Store.

No part of the city has a brighter future
before it than the western section. The
Electric road and the extension of other
lines in this direction, has made a great
change in the social portion of Los An-
geles. 3. All prices here are comparatively
low and investors have a fine chance to
double their money. In another column
appears an advertisement of Mondoville,
a beautiful location for homes, where prop-
erty is now offered so cheap that the bu-
siness cannot help but make money. Mondoville
is one of the best chances for investment
in Southern California.

Grand Auction Sale.

nesday, at 10:30 A. M., on the
grounds, by the Los Angeles Land Bureau,
Easton & Eldridge, auctioneers. Free car-
riage from the office, at 20 West
First street.
